PDF PLAN USERS:

Determine if you plan to add Current Events pages to your book prior to deciding total page count. Current Events Pages need to be included in your total page count on the Production Form that accompanies your electronic files. The publisher will place your Current Events selection at the back of your book. Example: If your book was 92 pages and you chose a 4 pg. Current Events supplement to be added during production, your total page count when submitting your book would be 96 pages, including 4 pages of Current Events.
